

# English with Alexis

Week 10-14 May 2009

**Parents:** This is a collection of class work for the week. Please practice the sight word list inside this packet with your child. The lists will become more challenging up to list number 11. Remember, words from this list encompass up to 75% of all words a child will encounter in reading materials from preschool to Grade 3. If your child already knows these words, please know that we also work on proper pronunciation which is needed grade wide. Accuracy includes proper pronunciation. Please review this weekly work packet with your child and keep it at home. If you ever wish to discuss your child with me, I am always interested to listen (prior to 8 PM) at 986-0520. Alexis

Please review these sight words with your child as much as possible at home. Words will become more challenging up to List 11. Identifying the words with speed and accuracy is the goal.
